

SHEERLINE® RAILING INSTRUCTIONS 3250 STEP SERIES

NOTE: 32.5 ANGLE IS BASED ON
TYPICAL 7/11 STEP

ASSEMBLY

Measure and cut bottom rail (if necessary) per note below. Slide brackets on to ends of bottom rail. Place bottom rail on step tread and attach brackets to posts with #8 x 1-1/2" screws. Place pickets into bottom rail. Put top rail (cut per note below if necessary) onto pickets and slide top rail brackets onto rail. Attach to posts with #8 x 1-1/2" screws.

3250 Step System can be mounted to 4" x 4" treated wood post or other post/column configuration. Post must be plumb.
