

High-Efficiency Electric Furnace

BUILT

EXCLUSIVELY

FOR

MANUFACTURED

HOMES

MILLER®

Exclusively made for your Manufactured Home.

Today, the manufactured home is a sophisticated, affordable home that is a smart choice for many buyers. Equally smart is knowing that your manufactured home furnace is just that — a *manufactured home* furnace. Specifically designed for your manufactured home, a Miller electric furnace offers high efficiency and system dependability.

The more you learn about our manufacturing process, the more you'll see that no other heating and cooling manufacturer compares to Miller's product quality — quality made possible through Demand Flow Technology™. While other companies test products at random, we use 100% computer-automated testing on every Miller product to eliminate human error in the final analysis of product quality. We are the only heating and cooling manufacturer to be DFT certified.

Miller is a household name in the manufactured housing industry, with over 75 years of experience. Given our history and dedication to the manufactured housing industry, it is easy to see why most new manufactured homes are built with our heating systems, and when applicable, are equipped with our cooling systems too. You can rely on your Miller expert to make your home more comfortable with AireCare electronic air filters, digital thermostats and other manufactured home accessories.

It's a comfort to know that Miller is made for your manufactured home, and it's a comfort you can feel.

Features & Benefits

- Proven components ensure high quality and dependability.
- Designed for all sizes of manufactured housing applications - fits easily in an enclosed closet or alcove.
- Multi-speed blowers increase air movement to circulate heat in a large, multi-section home.
- The AireCare electronic air filter can be easily added to this popular furnace. The AireCare electronic air filter will remove dust mites, cigarette smoke and allergens.
- Appliance finish protects against rust and other corrosion.
- All units and each component are tested on the manufacturing line to ensure quality.

Extend your standard 1-year parts and labor warranty to 5 or 10 years under our Watchdog Protection Plan. If you ever sell your home, the protection plan is transferred to the new owner at no cost.
