

SHEPHERD DISTRIBUTION CO.

TACP-620A

“Heavy Duty” Black Cloth Repair Tape

Description: A laminated polyethylene cloth tape with an aggressive natural rubber based adhesive formulation and more adhesive mass than typical duct tapes.

Use: TACP-620A is used for numerous purposes including heating, ventilating and air conditioning applications. It is also used to repair and/or seal mobile home bottom board and close up materials, insulation and other building and construction materials and in heavy duty applications requiring high strength and/or adhesion.

Features/Benefits: A versatile product that provides flexibility, conformability and excellent adhesion to a wide variety of materials and surfaces. TACP-620A adheres to metal, vinyl, polyethylene, plastic and other insulation facing surfaces. The backing is release coated to provide easier unwind.

Size: 2” x 36 yd. rolls (24 rolls per case)

TACP-620A

PRODUCT DESCRIPTION:

A laminated polyethylene cloth duct tape featuring an aggressive natural rubber based adhesive formulation and more adhesive mass than typical duct tapes.

PROPERTY VALUES:

<u>TEST</u>	<u>AVERAGE VALUE</u>	<u>TEST METHOD</u>
Peel Adhesion	70	PSTC 1 Mod.
Backing Adhesion	45	PSTC 1 Mod.
Tensile Strength (lbs / in)	40	ASTM D -1000
Adhesive Thickness	10.0 mils	
Total Thickness	17.0 mils	
Adhesive Type	Natural Rubber	

PRODUCT FEATURES:

Excellent adhesion to a wide variety of materials and surfaces.
Backing is release coated to provide easier unwind.
