

INTRODUCING NEW BOTTOMBOARDS **FROM SHEPHERD DISTRIBUTION**

Shepherd has supplied quality bottomboard products to the manufactured housing industry for over 35 years. In our continual effort to supply our customers with quality, cost-conscious materials, we are pleased to introduce:

- **SHEPWEAVE II**

- Standard woven PE construction for strength
- Seamless (rolls widths from 148" to 205" and 3,000' long)
- Economically priced
- Only available in "C" folded rolls (up to 102" wide)
- Prototype rolls available now

- **MOBILE FLEX II**

- Heavier woven PE construction for additional strength.
- Seamless (rolls widths from 148" to 205" and 3,000' long)
- Priced below other woven bottomboards
- Only available in "C" folded rolls (up to 102" wide)
- Prototype rolls available now

Shepherd still offers the original Mobile Flex which has been on the market for over 15 years. It is available in both flat and folded rolls in all the standard widths from 148" to 205". Customers like its superior strength and the ability to walk on the product. Installed on over 1 million floors.

In addition to the above, please see our updated product sheet for additional items available from Shepherd. For more information or to prototype any of these products, please call Shepherd Distribution at (866) 226-2267 or contact your local Shepherd distributor.
